Silergy Key Points

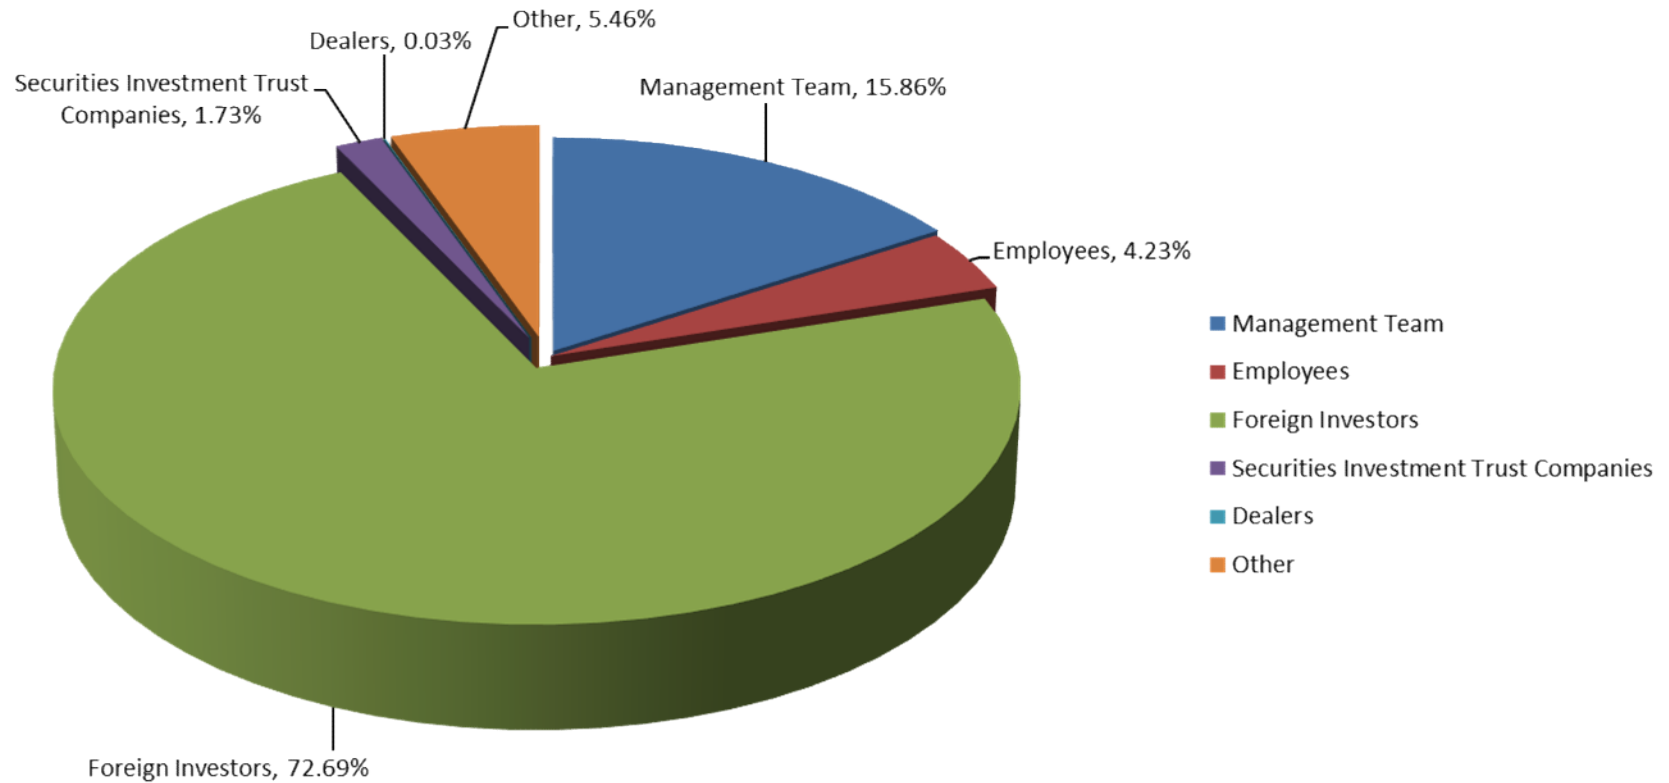

- **International Culture: marriage of “West” and “East” culture**
 - “West”: **innovation**, leading market positioning
 - “East”: **execution**, diligent, fast response
- **Innovation Driven Virtual IDM Platform Model**
 - More than 1,227 patents awarded
 - More than 357 patents pending
- **Committed to Developing Industry Leading Products**
 - Smaller size
 - Higher efficiency
 - More Intelligence

Power Management IC Trend

The technology trends of power management IC

- Smaller Size: technology upgrading of portable products
- Higher Efficiency: longer battery life, meeting government regulation of energy conservation and emission reduction
- Easy to Use
- Continuous Cost-Down: higher integration level
- Development Time Reduction

Diversified End Applications

Vision

Mission

Relying on technology innovation to produce analog ICs meeting highest efficiency requirements to reduce energy consumption and to be environmental friendly

Goal

Best technology leader in analog IC industry

Operation Principle

Upholding the principle of “integrity, creativity, and continuous service”, we provide our customers with analog IC with both high efficiency and cost saving, with value added and customized system design support.

Our Edge

Thanks !
