## Vision

01

### Mission

Relying on technology innovation to produce analog ICs meeting highest efficiency requirements to reduce energy consumption and to be environmental friendly

02

### Goal

Technology leader in analog IC industry

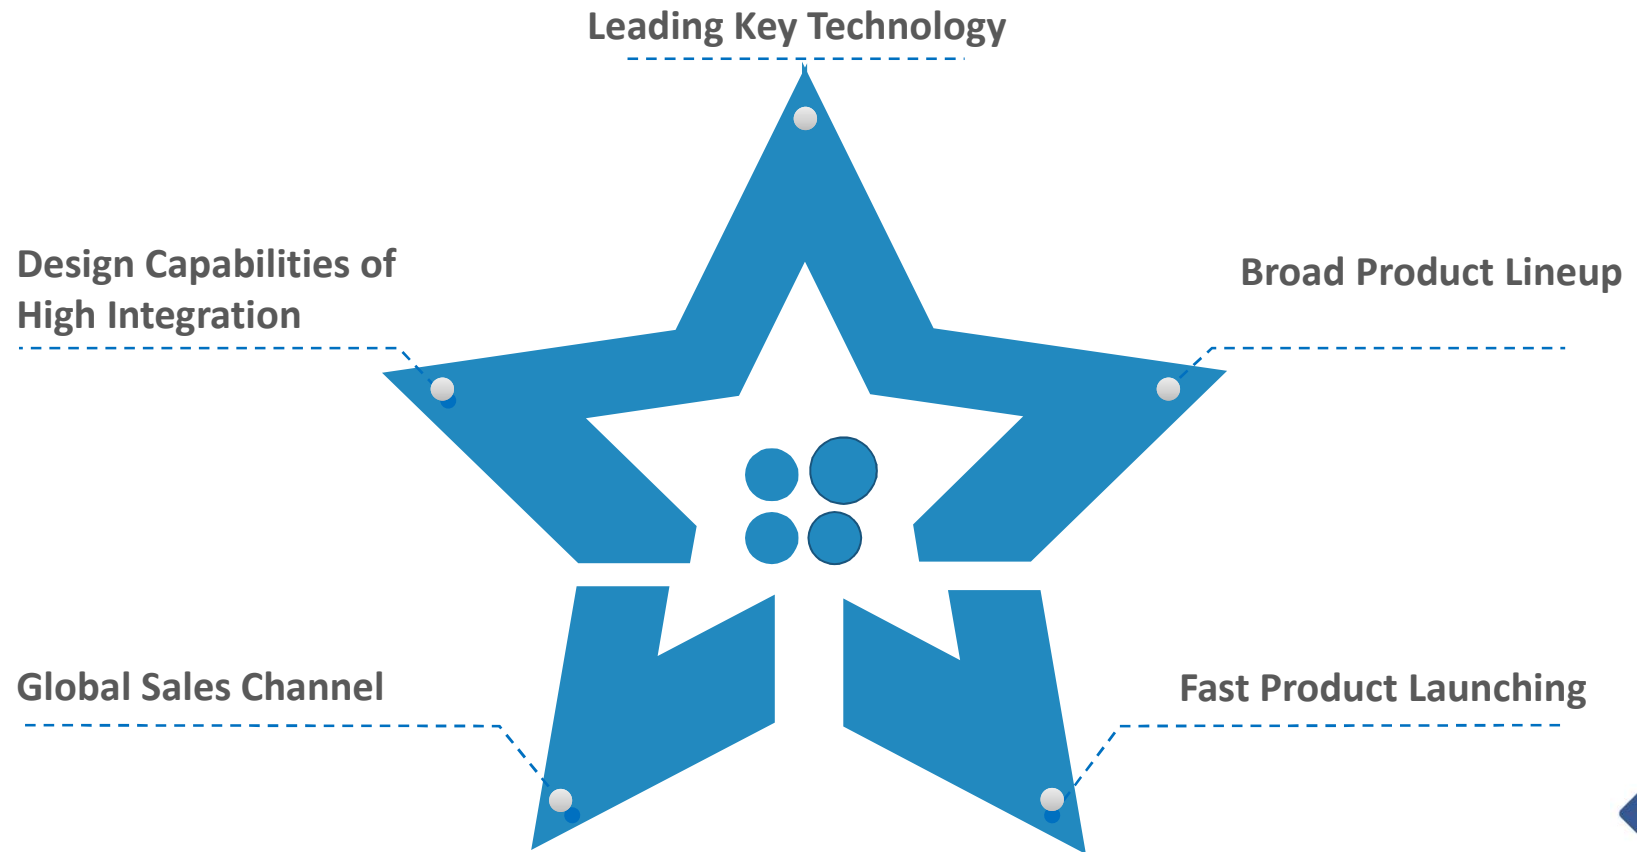

03

### Operation Principle

Upholding the principle of “integrity, creativity, and continuous service”, we provide our customers with analog IC with both high efficiency and cost saving, with value added and customized system design support.

## Our Edge
